

**JUNE 2008**

**JOB OPENING: GIS PROGRAMMER/ANALYST**

Pinnacle Mapping Technologies is looking for an experienced GIS Programmer/Analyst to help support a wide range of GIS mapping projects. Pinnacle's clients range from private engineering firms to state and local government agencies.

Pinnacle is a 100% digital (softcopy) photogrammetric mapping shop. We use the state-of-the-art Intergraph Z/I photogrammetric software suite for data capture and ESRI's ArcGIS 9.x GIS software for geoprocessing. Pinnacle, as a member of ESRI Developer's Network, continually strives to improve our geo-processing, quality control and digital data products by utilizing the latest advances in GIS technology.

GIS Programmer/Analyst candidates must have demonstrated experience with:

- Microsoft VB.NET and/or C# .NET programming languages
- ESRI ArcGIS Server software (ArcGIS Server, ArcGIS Image Server)
- ESRI ArcGIS Desktop software (ArcView, ArcEditor, Arc/INFO)
- RDBMS development and programming experience

Additional experience with ESRI's ArcSDE, ArcIMS, and ArcReader products is a plus.

Other required skills include:

- Excellent PC/IT technical skills
- Good verbal / written communication skills
- Enthusiastic and eager to learn and apply new technologies
